

# APPRENTICESHIPS

## **A** day in the life of a Civil Engineering Technician Apprentice

**I will attend college one day a week to learn how to be a Civil Engineer**

**I will move around the different teams in Highways learning all the aspects of civil engineering and highway maintenance**

**I will attend training to help me learn all about highways such as Autocad and Construction Design Management Regulations**

**I will carry out site surveys supporting highways engineers design schemes**

**I will learn about the different techniques used to design build and maintain civil engineering projects**

**I will select and use appropriate scientific, technical and engineering principals and techniques for designing schemes**
