

Project Manager– Development Management Grade 14

Role Description

To be read in conjunction with the Project Manager – Grade 14 Job Profile.

In Kirklees, we are planning on a bright future. The adopted Local Plan sets ambitious housing and job growth targets. To meet this challenge, we are looking to appoint a highly skilled and very experienced Master planner to work within the Development Management service to lead on the delivery of our strategic planning sites. Take a look at our Local Plan, sites including Bradley Park (2000 dwellings), Chidswell (1500 dwellings) and Dewsbury Riverside (4000 dwellings) are all places to be planned, designed, and delivered through the lifetime of the Local Plan.

We want to create places that our communities, new and existing, can be proud of. This is an exciting time to join our team as we start to plan, design, and create the masterplans and design frameworks and infrastructure delivery plans to make these key sites a reality. You will be asked to lead on the planning stages, coordinate across the Council's services the infrastructure requirements to help shape and realise the strategic housing and mixed-use sites. Your skills and experiences in delivering and project managing sites of comparable scale to our allocations would be matched by our ambition to see high quality new settlements that improve the lives of our residents and facilitate big economic growth in the District.

In addition to our Local Plan housing targets, Kirklees has an ambitious housing development programme to build 10,000 homes by 2023, of which at least 1,000 will be on council-owned land. We are looking for individuals with a strong background in housing development and regeneration to join us in this exciting and challenging initiative.

Our focus is on pace, innovation and achieving well-designed places. This role will often require an ability to respond creatively to legislative and site constraints to achieve these objectives, as well as an understanding of infrastructure planning and delivery. A driving force behind these projects is the overriding sense of satisfaction derived from knowing that the work undertaken makes a tangible and often visible difference to our residents and businesses.

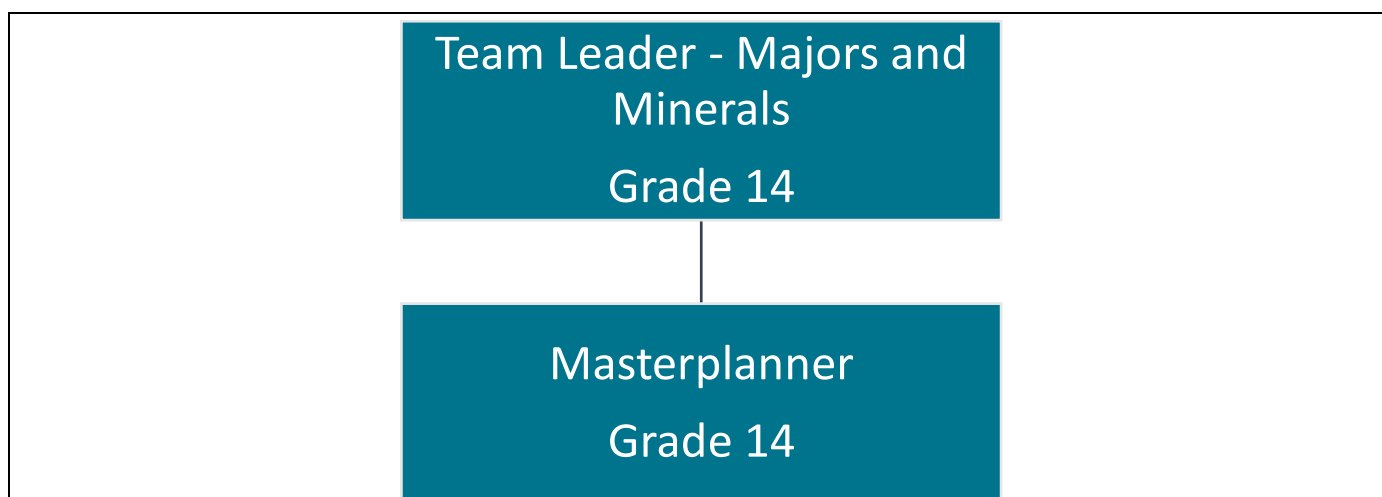

This is an exciting and challenging time for Kirklees, and we need more talented and ambitious people to join our team. If you are this person, we look forward to hearing from you.

Key areas of responsibility

- Providing pre-application advice to prospective applicants for major and complex development schemes. Developing Planning Performance Agreements and acting as the lead officer.
- Project managing significant and complex Strategic and Major applications across the district.

- Seeking to add value to proposals and applications through advice, process management and timely decision making.
- Managing the delivery of effective and timely preparation and presentation of delegated reports and reports to Planning Committees
- Contribute to and support negotiations on potential Section 106 contributions, in connection with planning proposals.
- Representing the Council as required at Informal Hearings and public enquiries and meetings.
- Input into service improvement initiatives.
- Supporting the Major Applications team leader, mentor junior staff, help maintain and improve service performance.
