

I love Scholes Village Primary School because all the teachers welcome you with open arms and pay close attention when you need them. Every teacher encourages you to achieve your goals and to work to the best of your ability. I have made a lot of friends at this school and some are best friends for life, with an unbreakable bond. We are a tight knit school, who always look after each other so nobody ever gets alone. The school has a friendly atmosphere and I love attending it.

I love going to Scholes Village Primary School because all the teachers are really nice but my favourite teacher is Miss Greenwood! She is so kind and helps me with my work when I get stuck and she is fun too. I have made lots of friends and some best friends. I like going to school to learn new things. I think our school is better than any other school because we have a forest which I like going to even though I don't like getting dirty. My favourite thing in school is the muga so I can play football because that's what I am good at. So this is why I think the school is special and the best in the world 😊

What is it that makes Scholes school so amazing?

Is it the teachers the pupils or the trips?

Or is it the Christmas play, when all the kids dress up and sing?

Although I don't like the school dinner chips

What makes Scholes primary so cool?

Maybe it's the m.u.g.a , the forest or the tuck shop?

Either way its my favourite school!

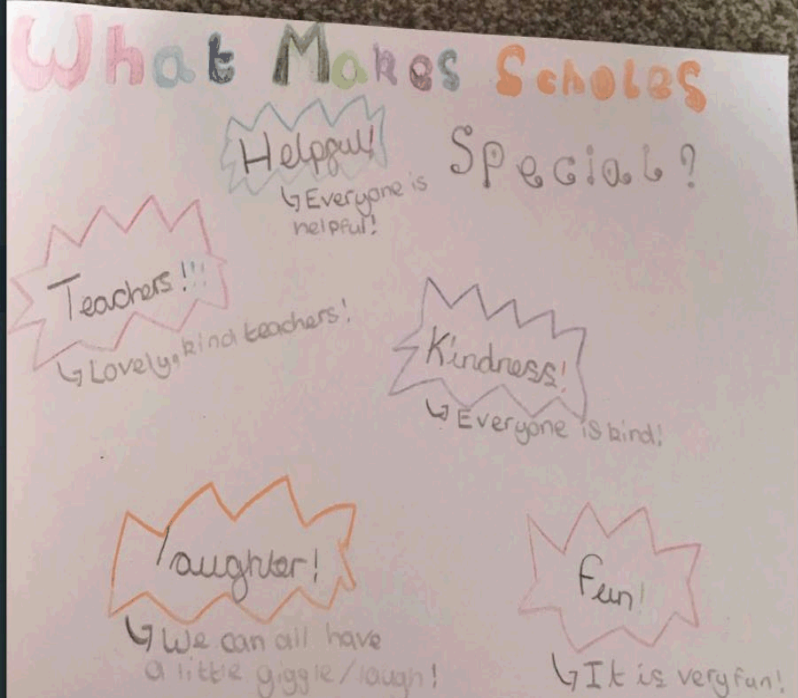

Even though we are not allowed sweets or fizzy pop!

It's the teachers that makes Scholes so amazing and cool

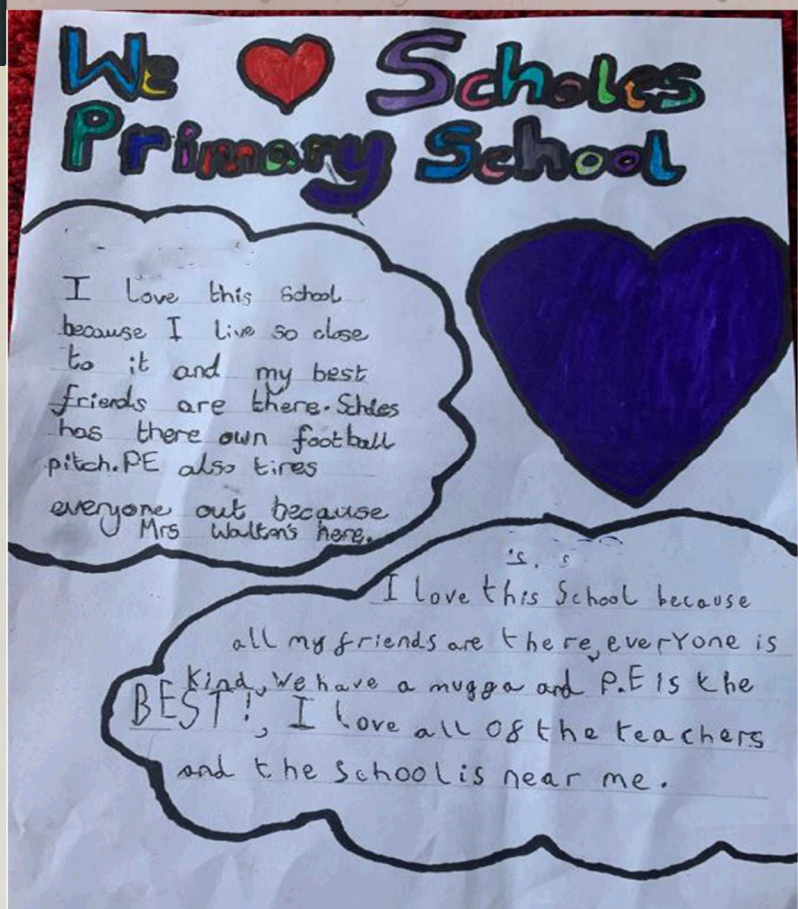

And this year we need a new head for our school,

We'd like one as nice as Mrs .M, and maybe just maybe a swimmer

We will just let you know Scholes really does rule!
